Product Selector Chart - Decking

PREPARATION

OLD TIMBER DECK

PREVIOUSLY COATED ?

NO

DEX PREP
Timber brightener for exposed grey & dirty timber.

YES

PAINT

Q-STRIP
Paint remover. Removes old paint & dirt. Returns timber to its natural state.

OIL or STAIN

POWER CLEAN
Removes old & residual oil & dirt. Returns timber to its natural state.

DEX PREP
To neutralise timber before coating.

NEW TIMBER DECK

SAP STRIP
Removes mill glaze, tannins & extractives from all new timber under 12 months old where full weathering has not occurred.

APPLY CHOICE OF DECKING FINISH

PRESERVATION Only

QUANTEC
A deeply penetrating, natural matt (clear) oiled finish that protects and preserves the timber. Reduces cracking, splitting, warping, checking, cupping & protects against moisture. Reapply 6-9 month to prevent greying off.

SOLID OPAQUE COLOUR

E.L. DECKCOAT
A non-slip, opaque (solid colour), matt finish. Ideal for older weathered & difficult to maintain decking. Will fill minor surface defects such as cracking & splitting. Available in 40 tinted colours.

NATURAL or TRANSPARENT COLOUR

Transparent Stains available in 32 colours

ECODEX QUIX
A penetrative, water based oil, matt finish. One hour recoat. Resists stains, dirt & mould. Available in natural or transparent stain colours.

TIMBRE PLUS DECKING
Premium, water repellent natural oil finish. Outstanding adhesion & toughness, slip & UV resistance. A low sheen finish. Available in natural or transparent stain colours.
