

INTERIOR Timber Coatings

STAIN FINISH

AQUASTAIN

A transparent wiping stain suitable for brush or cloth application. Available in 36 colours.

Topcoat

With TIMBRE PLUS Interior, MICROCLEAR INTERIOR or MICROFLOOR.

AQUASTAIN

CLEAR FINISH or 2 in 1 Stain Finish

FULL GRAIN FINISH "Smooth Feel"

MICROCLEAR

Fast drying, clear urethane with added UV protection. Tintable to transparent or opaque colours. Apply multiple coats in a day. Available in matt, satin and gloss.

MICROCLEAR

NATURAL OPEN GRAIN TIMBER FINISH "Natural Look"

TIMBRE PLUS INTERIOR

A low VOC, non-toxic, low allergenic, oil based finish. Tintable to transparent or opaque colours. Available in a low sheen finish.

TIMBRE PLUS INTERIOR

INVISISEAL

Uncoated Natural look. Interior timber, concrete & masonry, including vertical surfaces & ceilings. A water repellent, dust suppressant. Available in a matt finish.

INVISISEAL

FLOORING CLEAR FINISH

Water Based

MICROFLOOR

Water based, single pack urethane. Tannin blocking, low odour & fast drying. Available in matt, satin & gloss.

MICROFLOOR SLIP RESIST 50

Provides a minimum D1 Dry Slip and P5 Wet Slip Rating.

MICROFLOOR

Solvent Based

QTHANE

Solvent based, single pack, clear polyurethane. Good chemical resistance to household wear & tear. Available in satin & gloss.

QTHANE

EXTERIOR Timber coatings

OPAQUE SOLID COLOURS (Wide colour range)

ENVIROLOC

A fast drying finish. Provides excellent coverage. Change the colour of the surface without concealing the texture. Tintable to solid opaque colours.

Ideal for compressed board, Weathertex, Masonry, Timber cladding & Cement render.

ENVIROLOC

AQUAOIL

Binds wood fibres together to prevent peeling, cracking or splintering. UV resistant. Penetrates without concealing the texture of the substrate.

Quality exterior timber requiring a long life coloured finish. Ideal for rough sawn timber e.g. Shadowclad.

AQUAOIL

AQUAOIL OMEGA

A penetrative coating designed to protect against damage caused from snow & salt.

Ideal for alpine & coastal areas on timber requiring a long life coloured finish.

AQUAOIL OMEGA

FULL GRAIN FINISH "Smooth Feel"

MICROCLEAR EXTERIOR

A fast drying, non-toxic, low odour, clear urethane with added UV protection. Apply multiple coats in a day. Available in matt, satin & gloss finish. Tintable to either transparent stain or solid opaque colours.

Exterior protected or semi shaded timber, such as eaves, windows & doors.

MICROCLEAR

CLEAR FINISH or 2 in 1 STAIN FINISH

NATURAL OPEN GRAIN TIMBER FINISH "Natural Look"

HARDWOOD

PRESERVATION ONLY

QUANTEC

Deeply penetrating, natural matt (clear) oiled finish that protects and preserves the timber. Reduces cracking, splitting, warping, checking, cupping & prevents mould & mildew.

Re-apply every 6-9 months to prevent greying off, or every 3 years if grey finish is preferred.

QUANTEC

COLOUR ENHANCING

TIMBRE PLUS VERTICALS

A low sheen, tough, UV resistance, semi-transparent natural look. May be tinted to one of the transparent stain colours.

Exterior doors & windows, weatherboards, handrails & garage doors.

TIMBRE PLUS VERTICALS

SOFTWOOD

GOLD

Low sheen, penetrating, transparent UV stabilised coating. Golden appearance (red hues). This water repellent, fungal resistant coating enhances timbers natural grain.

Ideal for softwood incl. Cedar, Cypress, Oregon & Treated Pine. Broad timber surface areas: garage doors, cladding & feature walls.

GOLD
