

QUANTUM

TIMBER FINISHES

Environmentally Sustainable, Environmentally Responsible.

AQUASTAIN

A transparent wiping stain for brush or cloth application.

Advantages

- Suitable to stain all interior timber.
- Wide range of transparent tint colours available.
- Overcoat with TIMBRE PLUS Interior, MICROCLEAR or MICROFLOOR.

Typical Applications

Interior timber that has not been previously painted with a solid paint. Not recommended for previously stained or painted surfaces unless completely stripped and cleaned.

Coverage

- 12m² per litre on dressed timber and approximately 6m² per litre on rough sawn timber.

Application Method

By brush or cloth.

Good preparation is key to a professional looking, long lasting finish:

1. Sand where necessary to improve imperfections. Ensure the surface is clean, dry and free from all dirt, dust, grease and grime.
2. Apply AQUASTAIN evenly with either a brush or a cloth, allow to dry.
3. Finish with two coats of one of the recommended topcoats below.

Note: Stirring the stain well before application is essential to ensure to correct colour and even application. If you are using more than one can, you should mix the can contents together before application to achieve consistent colour. Test the colour on a small section first to ensure it is what you expect.

Specifications	Heat/Temperature	Do not apply if temperature is below 15°C or above 30°C.
