

## AQUATEC DIP

An easy to apply, non-toxic, non-flammable, oil based dip finish. It exhibits a high degree of water and scuff resistance as it binds the wood fibres together to protect against moisture attack. Excellent mildew, algae and fungal protection.

### Product Advantages

- Easy to use, coats all surfaces evenly.
- Anti-fungal properties.
- Penetrates and conditions the timber, whilst retaining the natural surface texture and grain of the timber.
- Helps prevent shrinking and swelling of timber, which can cause cupping and warping.
- Non-toxic, low odour and water clean-up.
- No sanding required.
- Time saving, increase efficiency in production.
- Topcoat with other Quantum products, if required.
- Environmentally responsible – made from bio based, ecologically sustainable products.

### Typical Applications

Interior or exterior application such as spa cabinets, furniture, children's cubby houses, timber chips, timber screens/blinds, windows and doors, timber sleepers, pergolas and pre-finished decking.

### Typical Properties

Colour: Natural or tinted to one of Quantum's Transparent colours

Gloss: N/A

VOC: <75 g per litre

**Coverage:** 6m<sup>2</sup> per litre on rough sawn timber depending on the porosity of the timber.

**Application Methods:** Dip application

Good preparation is key to a professional looking, long lasting finish:

- Immerse pre-cut timber into dipping tank for 10 -15 seconds to deeply penetrate timber finish, remove then to drip-dry.

**Drying:** Air dry

*In cooler or humid conditions drying times will be longer. Do not apply if temperature is below 15°C or above 30°C*

**Clean Up:** Clean all equipment using water.

**Product Code:** 4850

**Packaging:** 20L, 200L

### Health & Safety

Before handling, refer to the Safety Data Sheet (SDS) for health and safety information. Ensure that all people using this product have read and understood this data sheet, the associated SDS and packaging label before using this product.
