## TIMBER FINISHES

*Environmentally Sustainable, Environmentally Responsible.*

## QTHANE

A solvent based, single pack, clear polyurethane floor finish.

---

### Advantages

- A hard durable coating.
- Good resistance to household chemicals.

---

### Typical Applications

Interior timber floors and trims and furniture.

---

### Coverage

- 12m<sup>2</sup> per litre.

---

### Application Method

By brush, roller or applicator.

Good preparation is key to a professional looking, long lasting finish:

#### Uncoated timber:

- Ensure the surface is free of dirt, grease and loose material.
- Fill holes with wood filler and allow to dry.
- Sand to a smooth finish in the direction of the grain, remove dust.
- If required apply AQUASTAIN in the colour of your choice.
- Applying a minimum of 2 coats of QTHANE, sanding between coats with 240 grit paper.

#### Previously coated timber:

- Sand off all old coating before applying QTHANE. Follow directions above.

*Note: Always test recycled timber for adhesion prior to full application.*
